Checklist:

- I have completed all sections
- Mail or drop off at Klinik front desk: 167 Sherbrook St., Winnipeg, MB. R3C 2B7

FAQ's: Appointments at Klinik

Where is Klinik? We are located at 167 Sherbrook St., Winnipeg, Manitoba R3C 2B7

Where do I park? Street parking is available or there is a parking lot behind our building

What buses can I take? The 29 and 17 stop in front. The 36 stops close by, and we are 1 block off Broadway and 2 blocks from Portage Avenue.

What do I should I expect at my appointments? You will check in at the front desk, you may be given a form to complete to confirm your contact information at your first appointment, you will be taken to a room for your appointment. After your appointment you can book your next follow up appointment at the front desk before you leave.

Trans Health Program Information

Who do you see at the Trans Health Klinik? All gender identities requiring gender affirming medical care or surgical referrals, ages 16 years & up.

Why do people come to Klinik? To access gender affirming medication or surgical referrals that their primary care doctor cannot provide or if they do not have a primary care provider.

If my doctor refers to me, will I get in sooner? All referrals are treated equally, in the order received. **If you do have a family doctor or nurse practitioner, they can e-consult or fax us if they need advice to start your gender affirming hormone prescriptions.**

How long of a wait is it from the time I call until my first in person appointment? This is quite variable, right now it is 1 year.

How long can I come to your clinic? For gender affirming hormone prescriptions you will have follow up appointments for about 1 year then we will transfer the prescribing to your primary care provider.

What other supports or services can I access through your clinic?

- New and/or gently used binders available.
- Social worker support and they can sign Manitoba Vital Statistics Legal Name Change forms. Counseling is also available.
- Peer support 204-784-4016
- Nurse support to discuss prescription or surgical referral questions, and injection teaching

Why do I need to have a family doctor? We are a transitioning care clinic focused on gender affirming medical care and referrals. For regular medical checkups (wellness or illness based) you will still see your primary care doctor or nurse practitioner.

How do I find a primary care doctor or nurse practitioner? Clinics may post signs or information on their website or use Family Doctor Finder to get patients: 204-786-7111 or 1-866-690-8260 or www.gov.mb.ca/health/familydoctorfinder. Post-secondary schools usually have clinics, and if you are under 29 you can see if there is a youth Huddle near you.
